## Table of contents

1. Honesty and scope
2. PM compliance and overdue work
3. Asset health summary
4. Work-order chronology
5. Parts and PR - PO - GR highlights
6. Workmanship and rework
7. Spare-variant notes
8. Functional location / hierarchy snapshot

### 1. Honesty and scope

Synthetic Oxmaint AI projection mirrored to SAP MM/PM shapes - not live airline or production SAP data.

Synthetic CVG GSE projection at about 1,600 work orders a month (~400 a week). Patterned on published Superhub scale and industry practice - not DHL actuals. Materials and asset hierarchy are an Oxmaint AI projection mirrored to SAP MM/PM shapes - not a live production SAP connector.

This pack is an Oxmaint AI projection for a voice and portal demo. Counts, names, and SAP document numbers are synthetic and mirrored to SAP MM/PM shapes. They are not DHL actuals and not a live ECC or S/4 extract.

### 2. PM compliance and overdue work

## PREVENTIVE WOS

**340**

## CLOSED ON TIME

**100%**

## OVERDUE PMS

**92**

## PERIOD WOS

**552**

On-time is closed preventive work completed on or before the due stamp. Overdue PMs are active schedules whose next due is before today. Synthetic Oxmaint AI projection of workmanship and spare-variant outcomes - not live airline or production SAP data.

| ASSET        | SCHEDULE                                       | NEXT DUE   |
|--------------|------------------------------------------------|------------|
| CVG-PWR-0001 | 250-hour service - engine / drivetrain service | 2026-08-24 |
| CVG-PWR-0002 | 250-hour service - engine / drivetrain service | 2026-06-15 |
| CVG-PWR-0003 | 250-hour service - engine / drivetrain service | 2026-03-10 |
| CVG-PWR-0004 | 250-hour service - engine / drivetrain service | 2025-01-06 |
| CVG-PWR-0006 | 250-hour service - engine / drivetrain service | 2026-03-28 |
| CVG-PWR-0009 | 250-hour service - engine / drivetrain service | 2026-08-31 |
| CVG-PWR-0010 | 250-hour service - engine / drivetrain service | 2026-01-06 |
| CVG-PWR-0011 | 250-hour service - engine / drivetrain service | 2026-03-15 |

### 3. Asset health summary

6. Workmanship and rework

Score is 100 minus reopen (14-day), bounce-back, near-PM and rework rates, plus first-time-fix. Excellent is quiet closes; Watch / Coach is a mentoring queue, not a verdict.

| TECHNICIAN    | CLOSED | SCORE | BAND      | REWORK | BOUNCE | REOPEN 14D |
|---------------|--------|-------|-----------|--------|--------|------------|
| Alex Rivera   | 24     | 99    | Excellent | 0      | 0      | 0          |
| Lena Keller   | 32     | 99    | Excellent | 0      | 0      | 0          |
| Omar Novak    | 40     | 83    | Solid     | 8      | 8      | 12         |
| Sam Kowalski  | 41     | 66    | Watch     | 11     | 33     | 13         |
| Taylor Okafor | 41     | 59    | Coach     | 33     | 11     | 20         |

7. Spare-variant notes

OEM vs aftermarket variants on the voice register. Best fit is high reliability; higher value is reliable enough at a lower unit cost. Watch / drives-holds variants create fit issues, early failure, or repeat PRs.

| SKU         | CHANNEL     | VENDOR                       | REL. | VERDICT       |
|-------------|-------------|------------------------------|------|---------------|
| GRS-MP2     | oem         | OEM                          | 99   | Best fit      |
| FIL-OIL-250 | oem         | Cummins Central Power        | 99   | Best fit      |
| FIL-AIR-PRI | aftermarket | NAPA Commercial / Heavy Duty | 99   | Best fit      |
| HOSE-HYD-36 | aftermarket | NAPA Commercial / Heavy Duty | 99   | Best fit      |
| BAT-8D      | aftermarket | NAPA Commercial / Heavy Duty | 20   | Stay with OEM |
| BLT-CONV-24 | aftermarket | Aviation GSE Supply          | 20   | Stay with OEM |
| HOSE-HYD-12 | aftermarket | NAPA Commercial / Heavy Duty | 30   | Stay with OEM |
| BRK-HOSE-24 | aftermarket | NAPA Commercial / Heavy Duty | 40   | Stay with OEM |

8. Functional location / hierarchy snapshot

| EXAMPLE ASSET                                              | EQUIPMENT            |
